

# Weak Controlling the Strong – Solution

DO WE ALLOW THE WEAK TO CONTROL US? We choose the EVIL system or the GRACE system (ESC or GSC).

1. Jezebel is an example of one in the wrong system controlling the strong. Adam looked at the first sinner and was tempted. Decision TIME! ATTENTION!! GET in the divine system and stay PUT, or else disaster will follow.
2. Inside the DD the battle is the Lord's and you win. Inside the Cosmic system the battle is yours and you lose.
3. There are no real winners in the Cosmic system – different categories of losers. Among the categories of losers are the groups who follow the principle of being controlled by the weak.
4. There are NO losers in the DD, just categories of winners.
5. Starting with Adam's wrong decision, there would be no human history without strong decisions. This is a part of the great conflict – man must choose between arrogance and humility.
6. To put too much emphasis on personal strength, one becomes entangled with a system stronger than self – the Satanic system.
7. When you are weak, and are aware of that fact, you can become strong in choosing the DD. Once Adam ate of the tree of the knowledge of good and evil, history became a matter of self-determination. HUMAN VOLITION EXERCISES THE OPTIONS OF LIFE
8. Conclusions:
  - 1) Choose a Power system in which to reside.
  - 2) Then that decision merges you into a power greater than you are, so that your decisions take on the character of your choice.
  - 3) Good decisions are made toward God's plan – bad decisions are made towards Satan's system.
  - 4) Good decisions make the strong stronger, then options are presented for greater decisions to be even stronger.
